Canyon Crest Academy

Sophomore Karina Parikh recently created her own enterprise called **Stick 2 You**, a line of stickers that aims to promote self-confidence in teens. "The stickers remind teens to stay positive and keep moving forward even though sometimes life can be stressful and things don't always go your way," Karina said. "At school, a lot of people are stressed and discouraged because of all the pressures they are facing."

International Children's Book Day

Book Day

Free Apps to Engage Children's Minds

This day is celebrated in honor of the Danish author and poet Hans Christian Andersen the wonderful storyteller.

The ICBBD has been organized every year since 1967 by the International Board on Books for Young People (IBBY). Benefits include:

- Brain exercise - reading engages and exercises the brain, helping it to better make neural connections.
- Vocabulary improvement - the amount of terminology that a child uses and possesses can increase with regular reading.
- Empathy and imagination - reading opens children up to new horizons, helping them think outside the box and engage with the outside world in ways they had not done previously.
- Morale improvement - it should not be forgotten that reading is fun! Taking part in it will boost a child's morale and uplift their mood.

National D.A.R.E. Day

D.A.R.E.'s keepin' it REAL

Drug Abuse Resistance Education

Drug Abuse Resistance Education is dedicated to educating children and teens about the dangers of drug abuse. For the past two decades, federally funded school-based drug prevention education programs have carried a singular message. In content it's "drugs are bad" and in message it's "just say no." The new course, called keepin' it REAL, differs in both form and content from the former D.A.R.E. - replacing long, drug-fact laden lectures with interactive lessons that present stories meant to help kids make smart decisions.

Event Awareness

April Observations

Animal Cruelty Prevention Month

The month of April has been designated to teach and raise awareness about animal cruelty.

National Autism Awareness Month

Both Aspergers and Autism are increasingly referred to as Autism Spectrum Disorders (ASD) as a range of disorders exist affecting verbal and nonverbal communication, social interaction and imaginative or creative play. Children have trouble in the classroom communicating their needs or understanding instructions. Inappropriate social behavior leads to the child being bullied or isolated and their inability to decipher the world around makes it difficult for their teachers to meet their needs.

The United Nations Health Day

Every April 7th is the UN Health day it attempts to make sure all humans have the medical care they need and to educate them about preventive measures in keeping everyone healthy.

Anti-Human Trafficking (AHT)

District 5340 Steering Committee

District Governor Elect Steven Weitzen spoke about AHT as the signature initiative for 2020-2021; while Chair David Oates went over purpose/activities/measures of effectiveness.

1. To facilitate sustained, coordinated, and impactful initiative against the human sex trafficking scourge that exists within District 5340's borders.
2. To increase the understanding of the core issues surrounding human trafficking from the exploited, exploiter, and the buyer perspectives.
3. To develop the foundational best practices for Rotary's involvement in combatting human sex trafficking as it exists within other regions of the U.S. and around the world.

Activities: To center around four core areas.

- Awareness
- Victim & Survivor Services
- Intervention/Prevention
- Measures of Effectiveness
